

Masterburn

ON SITE INCINERATION

Designed for you.

Model No: MB750

APPLICATIONS...

The MB750 is a top loading incinerator with a full width counter balanced lid which gives great access to the main chamber for loading of carcasses and easy ash removal.

This machine has found favour within the larger pig farms, equestrian farms, small abattoirs and large poultry units.

The design of this model ensures extra air is drawn into the main chamber aiding primary combustion to ensure the efficient disposal of carcasses at minimum cost.

FEATURES & BENEFITS...

- DEFRA + DARD "TYPE APPROVED"
- Large Top Opening Lid For Easy Loading
- Fully Automatic and simple to operate control panel
- Variable time settings
- Fully insulated
- Solid Hearth to Allow Maximum Burnout
- Optional Stainless Steel Casing
- Optional Automatic Temperature Recording
- Optional Heat recovery system
- No Smoke or Smell

Model No.	MB 750
Fuel Type	Oil
Cubic Capacity (Mtr)	1.18
Door Aperture (mm)	700 x 2000
EXTERNAL DIMENSIONS	
Length (mm)	3110
Width (mm)	1800
Height incl. Flue (mm)	3300
INTERNAL DIMENSIONS	
Length (mm)	2100
Width (mm)	700
Height (mm)	800
FUEL CONSUMPTION (GUIDE ONLY)	
Gallons / hour	1.4
MINIMUM OPERATING TEMPERATURE	
Degrees Centigrade	950
RESIDENCY TIME IN AFTERBURNER CHAMBER	
Seconds	2
Temperature Monitoring	YES
